

NASA ASTROBIOLOGY INSTITUTE ANNUAL REPORT YEAR 5

[July 2002 - June 2003]

Publications: Arizona State University

Abe, S., Dolci, W. Wilmoth, K. (2002). Summary of NAI field expeditions [Abstract: NASA Astrobiology Institute General Meeting 2003]. *Astrobiology*, 2(4): 558.

Adams, E.W., Grotzinger, J.P., Schroder, S., Al-Siyabi, H., Amthor, J.E. McCormick, D.S. (2002). Shape, size, and distribution of microbial reefs in a carbonate-ramp setting (Nama Group, Namibia) [Abstract]. *16th International Sedimentological Congress, July 8–12, Johannesburg, Abstract Volume* (p. 6).

Adams, E.W., Schroder, S., Grotzinger, J.P. McCormick, D.S. (Submitted, 2003). Digital reconstruction and stratigraphic evolution of a microbial-dominated, isolated carbonate platform (terminal Proterozoic, Nama Group, Namibia). *Journal of Sedimentary Research*.

Aho, K.M., Kajander, E.O., Çiftçiooglu, N., Hjelle, J.T. Miller, M.A. (2002). Screening of human gamma globulin products for nanobacteria markers [Abstract]. *American Society for Microbiology, 102nd General Meeting*, Salt Lake City, UT.

Aikawa, Y., Momose, M., Thi, W.F., van Zadelhoff, G.J., Qi, C., Blake, G.A. van Dishoeck, E.F. (2003). Interferometric observations of formaldehyde in the protoplanetary disk around LkCa 15. *Publications of the Astronomical Society of Japan*, 55: 11–15.

Airieau, S.A., Farquhar, J. Thiemens, M.H. (2002). Oxygen isotopes in protoplanets [Abstract]. *Eos, Transactions of the American Geophysical Union*, 83(47, Fall Meeting Supplement): F229.

Albert, D.B., Hoehler, T.M., Des Marais, D.J., Turk, K.A. Bebout, B.M. (2003). Organic acid fluxes from cyanobacterial mats over diel cycles with nighttime anoxia [Abstract]. Abstract Book (p. 18), *American Society of Limnology and Oceanography (ASLO) Aquatic Sciences Meeting 2003*, Salt Lake City, UT.

Alexander, C.M.O'D. (2003). Making CAIs and chondrules from CI dust in a canonical nebula [Abstract]. *Abstracts of Papers, Thirty-Fourth Lunar and Planetary Science Conference, Houston, TX*. Abstract #1083.

Allen, C.C., Wainwright, N.R., Grasby, S.E. Harvey, R.P. (2003). Life in the ice [Abstract]. *Sixth International Conference on Mars, 20–25 July 2003, Pasadena, CA*. Abstract #3138.

Allen, C.C., Westall, F., Longazo, T.G., Schelble, R.T., Probst, L.W. Flood, B.E. (2003). Mars hematite: Potential for preservation of microfossils [Abstract]. *34th Lunar and Planetary Science Conference, Houston, TX*. Abstract #1005.

Allen, C.C., Westall, F., Longazo, T.G., Schelble, R.T., Probst, L.W. Flood, B.E. (2003). Meridiani Planum hematite deposit: Potential for preservation of microfossils [Abstract]. *6th International Conference on Mars, 20–25 July 2003, Pasadena, CA*. Abstract #3133.

Allen, C.C., Westall, F., Longazo, T.G., Schelble, R.T., Probst, L.W. Flood, B.E. (In Review, 2003). Meridiani Planum hematite deposit and the search for life on Mars: Preservation of microfossils and associated evidence of life in terrestrial samples. *Icarus*.

Amaral-Zettler, L., Messerli, M., Laatsch, A. Sogin, M. (2002). Comparative analysis of P-type ATPases from acidophiles and their neutrophilic relatives [Abstract: NASA Astrobiology Institute General Meeting 2003]. *Astrobiology*, 2(4): 542.

Amaral-Zettler, L.A., Messerli, M.A., Laatsch, A.D., Smith, P.J.S. Sogin, M.L. (2003). From genes to genomes, beyond biodiversity in Spain's Rio Tinto. *The Biological Bulletin*, 204(2): 205–209.

Amend, J. Teske, A. (In Review, 2003). New frontiers in deep subsurface microbiology. *Paleogeography, Paleoclimatology, and Palaeoclimate*. Geobiology, Special Issue.

Amend, J.P., Rogers, K.L., Shock, E.L., Gurrieri, S. Inguaggiato, S. (In Press, 2003). Energetics of chemolithoautotrophy in the hydrothermal system of Vulcano Island, southern Italy. *Geobiology*.

Amils, R., González-Toril, E., Gómez, F., Fernández-Remolar, D., Rodríguez, N., Malki, M., Aguilera, A., Amaral-Zettler, L.A. (In Preparation, 2003). Importance of chemolithotrophy for early life on Earth: The Tinto River (Iberian Pyritic Belt) case.

Amthor, J.E., Grotzinger, J.P., Schroder, S., Bowring, S.A., Ramezani, J., Martin, M.W., Matter, A. (2003). Extinction of Cloudina and Namacalathus at the Precambrian–Cambrian boundary in Oman. *Geology*, 31: 431–434.

Anbar, A., Knoll, A.H. (2002). Proterozoic ocean chemistry and evolution: A bioinorganic bridge? *Science*, 297: 1137–1142.

Anbar, A.D. (Submitted, 2003). Iron isotopes: Beyond biosignatures. *Earth and Planetary Science Letters*.

Anbar, A.D. (Submitted, 2003). Iron isotopes: Beyond biosignatures. *Earth and Planetary Science Letters*.

Anbar, A.D., Knoll, A.H. (2002). Proterozoic ocean chemistry and evolution: A bioinorganic bridge? *Science*, 297: 1137–1142.

Anbar, A.D., Knoll, A.H. (2002). Sulfur isotopes as paleoenvironmental indicators: Evolutionary implications [Abstract]. *Geological Society of America, 2002 Annual Meeting and Exposition, Denver, CO. Abstracts with Programs*: Paper 96–3.

Anbar, A.D., Knoll, A.H. (2002). Sulfur isotopes as paleoenvironmental indicators: Evolutionary implications [Abstract]. *Geological Society of America, 2002 Annual Meeting, 27–30 October 2002, Denver, CO*.

Anbar, A.D., Arnold, G.L., Rye, R., Weyer, S. (2002). Iron isotopes in an Archean paleosol [Abstract]. *12th Annual V. M. Goldschmidt Conference, Abstracts, Davos, Switzerland*.

Anbar, A.D., Arnold, G.L., Rye, R., Weyer, S. (2002). Iron isotopes in an Archean paleosol [Abstract]. *12th Annual V.M. Goldschmidt Conference, Davos, Switzerland* (p. A18).

Anbar, A.D., Arnold, G.L., Rye, R., Weyer, S. (2002). Iron isotopes in an

Archean paleosol [Abstract]. *12th Annual V.M. Goldschmidt Conference*, Davos, Switzerland.

Anbar, A.D., Buick, R., Grymes, R., Mojzsis, S., Nedachi, M., Ohmoto, H. Runnegar, B. (2003). The Astrobiology Drilling Program of the NASA Astrobiology Institute [Abstract]. EGS–AGU–EUG Joint Assembly 2003, Nice, France. *Geophysical Research Abstracts, Vol. 5, Volcanology, Geochemistry, and Petrology Programme*. Abstract EAE03–A–14160.

Anbar, A.D., Guynn, R., Liermann, L.J., Icopini, G., Barling, J. Brantley, S.L. (2003). Fe isotope fractionation during silicate weathering [Abstract]. EGS–AGU–EUG Joint Assembly 2003, Nice, France. *Geophysical Research Abstracts, Vol. 5, Cryospheric Sciences Programme*. Abstract EAE03–A–14269.

Anbar, A.D., Guynn, R., Liermann, L.J., Icopini, G., Barling, J. Brantley, S.L. (2003). Fe isotope fractionation during silicate weathering [Abstract]. EGS–AGU–EUG Joint Assembly 2003, Nice, France. *Geophysical Research Abstracts, Vol. 5, Volcanology, Geochemistry, and Petrology Programme*. Abstract EAE03–A–14682.

Anbar, A.D., Jarzecki, A. Spiro, T. (2003). Modeling equilibrium Fe isotope fractionation [Abstract]. EGS–AGU–EUG Joint Assembly 2003, Nice, France. *Geophysical Research Abstracts, Vol. 5, Cryospheric Sciences Programme*. Abstract EAE03–A–13661.

Anbar, A.D., Jarzecki, A. Spiro, T. (2003). Modeling equilibrium Fe isotope fractionation [Abstract]. EGS–AGU–EUG Joint Assembly 2003, Nice, France. *Geophysical Research Abstracts, Vol. 5, Volcanology, Geochemistry, and Petrology Programme*. Abstract EAE03–A–13661.

Arató, B. Pósfai, M. (2003). Crystal size distributions of magnetite from magnetotactic bacteria: Criteria for identifying biogenic particles in rocks [Abstract]. EGS–AGU–EUG Joint Assembly 2003, Nice, France. *Geophysical Research Abstracts, Vol. 5, Magnetism and Rock Physics Programme*. Abstract EAE03–A–10190.

Arnold, G.L., Anbar, A.D. Barling, J. (2002). Molybdenum isotopes and oxygenation of the mid–Proterozoic ocean [Abstract]. *Eos, Transactions of the American Geophysical Union*, 83(47, Fall Meeting Supplement). Abstract #PP51A–0291.

Arnold, G.L., Anbar, A.D. Barling, J. (2002). Oxygenation of proterozoic oceans: Insight from molybdenum isotopes [Abstract]. *12th Annual V. M. Goldschmidt Conference, Abstracts, Davos, Switzerland.*

Arnold, G.L., Anbar, A.D. Barling, J. (2002). Oxygenation of Proterozoic oceans: Insight from molybdenum isotopes [Abstract]. *12th Annual V.M. Goldschmidt Conference, Davos, Switzerland.*

Arnold, G.L., Anbar, A.D. Barling, J. (2002). Molybdenum isotopes and oxygenation of the mid-Proterozoic ocean [Abstract]. *American Geophysical Union, Fall Meeting, San Francisco, CA.*

Arnold, G.L., Weyer, S. Anbar, A.D. (Submitted, 2003). Fe isotope variations in natural materials measured using high mass resolution MC-ICP-MS. *Analytical Chemistry.*

Arnold, G.L., Weyer, S. Anbar, A.D. (Submitted, 2003). Fe isotope variations in natural materials measured using high mass resolution MC-ICP-MS. *Analytical Chemistry.*

Arthur, M. Kump, L. (2002). Carbon isotope excursions: Fluxes feedbacks and fallacies [Abstract]. *Geological Society of America Annual Meeting, Denver, CO. Abstracts with Programs.* Paper 105-8.

Asmar, S., Schubert, G. Nimmo, F. (2003). Estimations of lunar elastic thickness from admittance computations [Abstract]. *34th Lunar Planetary Science Conference, League City, TX.* Abstract #1963.

Ayala-del-Río, H.L., Ponder, M., Bergholz, P., Gilichinsky, D.A., Thomashow, M.F. Tiedje, J. (2002). Genome sequencing of Psychrobacter 273-4, a psychroactive microorganism isolated from a 20–30 thousand-year-old Siberian permafrost [Abstract: NASA Astrobiology Institute General Meeting 2003]. *Astrobiology*, 2(4): 322–323.

Ayala-del-Río, H.L., Ponder, M., Gilichinsky, D.A., Thomashow, M.F. Tiedje, J.M. (2002). Genome sequencing of Psychrobacter 273-4, a psychroactive microorganism isolated from a 20–30 thousand-year-old Siberian permafrost [Abstract: NASA Astrobiology Institute General Meeting 2003]. *Astrobiology*, 2(4): 544.

Bailey, J.V., McKay, D.S. Wentworth, S. J. (2003). Mn carbonates in the Martian meteorite Nakhla: Possible evidence of brine evaporation [Abstract]. *34th Lunar and Planetary Science Conference, Houston, TX*. Abstract #2060.

Bakermans, C., Tsapin, A., Souza-Egipsy, V., Gilichinsky, D. Nealson, K. (2003). Reproduction and metabolism at -10°C of bacteria isolated from Siberian permafrost. *Environmental Microbiology*, 5(4): 321–326.

Bally, J. (2002). Discovery of proplyd-like objects in the extreme environment of the Carina Nebula [Abstract]. 201st Meeting of the American Astronomical Society, Seattle, WA. *Bulletin of the American Astronomical Society*, 34(4): Abstract # 93.11.

Bally, J. (2002). Keck near-infrared observations of the Orion Proplyds: Initial Results [Abstract]. 201st Meeting of the American Astronomical Society, Seattle, WA. *Bulletin of the American Astronomical Society*, 34(4): Abstract # 93.15.

Bally, J. Walawender, J. (2002). A narrow-band visual wavelength survey of nearby star-forming clouds [Abstract]. 201st Meeting of the American Astronomical Society, Seattle, WA. *Bulletin of the American Astronomical Society*, 34(4): Abstract # 104.04.

Bally, J., Reipurth, B. Aspin, C. (2002). The highly collimated HH92 jet and parsec-scale outflow from IRAS05399–0121. *Astrophysical Journal (Letters)*, 574(1, Part 2): L79.

Bally, J., Reipurth, B., Walawender, J., Armond, T. (2002). The fountains of youth: Irradiated breakout of outflows in S140. *Astrophysical Journal*, 124(4): 2152–2163.

Bambach, R.K., Knoll, A.H. Sepkoski, J.J. (2002). Anatomical and ecological constraints on Phanerozoic animal diversity in the marine realm. *Proceedings of the National Academy of Sciences of the United States of America*, 99: 6954–6859.

Banin, A.F. Mancinelli, R.L. (2003). Nitrogen evolution and present day distribution on Mars [Abstract]. EGS–AGU–EUG Joint Assembly 2003, Nice, France. *Geophysical Research Abstracts, Vol. 5, Atmospheric Sciences Programme*. Abstract EAEO3-A-04381.

Barfod, G., Alberede, F., Knoll, A.H., Xiao, S., Baker, J. Frei, R. (2002). New Lu–Hf and Pb–Pb age constraints on the earliest animal fossils. *Earth and Planetary Science Letters*, 201: 203–212.

Barfod, G.H., Albarede, F., Knoll, A.H., Xiao, S., Telouk, P., Frei, R. Baker, J. (2002). Implications for the Neoproterozoic biological and climatic history from dating of the Doushantuo phosphorites, South China [Abstract]. *Eos, Transactions of the American Geophysical Union*, 83(47, Fall Meeting Supplement). Abstract # B71B–0737.

Barling, J. Anbar, A.D. (2002). Mass–dependent fractionation of molybdenum isotopes scavenged by manganese oxyhydroxides [Abstract]. *12th Annual V. M. Goldschmidt Conference, Abstracts, Davos, Switzerland*.

Barling, J. Anbar, A.D. (2002). Mass–dependent fractionation of molybdenum isotopes scavenged by manganese oxyhydroxides [Abstract]. *12th Annual V.M. Goldschmidt Conference, Davos, Switzerland*.

Barling, J. Anbar, A.D. (Submitted, 2003). Molybdenum isotope fractionation during adsorption by manganese oxides. *Earth and Planetary Science Letters*.

Barling, J. Anbar, A.D. (Submitted, 2003). Molybdenum isotope fractionation during adsorption by manganese oxides. *Earth and Planetary Science Letters*.

Barnes, R. Quinn, T. (2003). Planet scattering and exoplanet orbits [Abstract]. *American Astronomical Society, 34th Meeting of the Division on Dynamical Astronomy, Ithaca, NY*. Abstract #8.01.

Barnes, R. Raymond, S. (2002). Predicting new planets in known extra–solar planetary systems [Abstract]. 201st Meeting of the American Astronomical Society, Seattle, WA. *Bulletin of the American Astronomical Society*, 34(4): Abstract #46.15.

Barnes, R. Raymond, S. (2002). Predicting new planets in known extra–solar planetary systems [Abstract: NASA Astrobiology Institute General Meeting 2003]. *Astrobiology*, 2(4): 528.
